

# Brian Dew Honored with 2025 BX Cornerstone Award

Brian J. Dew, past president of the BX Board of Directors and current vice president of the BX Foundation Board has been selected as the 71<sup>st</sup> recipient of the Builders Exchange Cornerstone Award.

Brian, CEO at Mid-City Electric / Technologies, was selected based on his leadership contributions to the community, the industry and the Builders Exchange. Considered to be the highest honor presented in the central Ohio construction industry, the Cornerstone Award has been given annually since 1954. Brian follows in his father's footsteps as the second member of the Dew family to receive this honor—James F. Dew was recognized with the award in 2006.

He has been an active member of the BX community since the late 1980s. He served on the board of directors for a decade, including a term as president in 2017. Since 2018, he has continued his involvement through dedicated service on the BX Foundation board of directors.

His involvement at the BX includes participation in a focus group that created The Rising Leaders Institute and a task force member for the creation of the Field Leadership Excellence Series (BXFlex). He has also served on the Board Nominating Committee and as a Craftsmanship Awards judge.

Outside of his BX involvement, he is very active in the community, serving as a volunteer or board member for many local charities and organizations. His industry involvement includes serving as president on the Central Ohio Chapter of National Electrical Contractors Association and IBEW Local 683 Board of Trustees.

Brian was selected to receive the Cornerstone Award by the BX Board of Directors, based on an initial review by the Cornerstone Award Review Committee. Members of the committee were Jessica Anderson, BX board liaison (Anderson Concrete Corporation), Adam Drexel (Ruscilli Construction Co., LLC), Kathy Gatterdam

(ReadingRock+CCL), Karl Hasenstab (Renier Construction Corp.), Dean Locher (Robertson Construction Services, LLC), Ken Miller (Messer Construction Co.) and Mark Setterlin, chair, (Setterlin Building Company).
