CERTIFIED SUPERINTENDENT PROGRAM

This program teaches aspiring and current front-line managers the skills they need to become successful superintendents. Combining relevant BX education courses, the "Certified Superintendent" program will provide graduates the knowledge they need to succeed.

This commitment by employers and employees results in the tangible recognition of a **BX Certified Superintendent (CSP)**.

Designed for field personnel aspiring to be a superintendent, or those new to their role, the courses focus on management, safety, technical and legal issues. Take your talented field employees to the next level. Enroll them in the BX Certified Superintendent Program today!

Program Details:

- You may enroll in the program at any time.
- There is no enrollment fee.
- Receive 10% off course prices - must register through Education Director.
- The required 14 courses must be completed within a consecutive three-year time span.
- To fulfill course requirements, participants must attend 75% or more of the scheduled hours.
- Courses already taken, within two years prior to enrollment, may count toward CSP designation with approval.
- The program concludes with a "graduation ceremony" as part of the Builders Exchange Annual Meeting in November.
