

The Columbus Region

A TOP PERFORMING REGIONAL ECONOMY

The Columbus Region is a dynamic 11-county area in Ohio amidst unprecedented economic growth.

2.25 million Total population

No. 1 in the Midwest for population growth

No. 1 in the Midwest for job growth

No. 1 in the Midwest for GDP growth

Our Vision

To become the most prosperous region in the United States.

WHY IS THIS A BOLD IDEA AND AMBITION?

Zero of 200 metro areas in the United States have:

- Grown their regional economy
- Raised the standard of living across their entire region, *and*
- Closed meaningful economic/racial disparities **in the past several decades.**

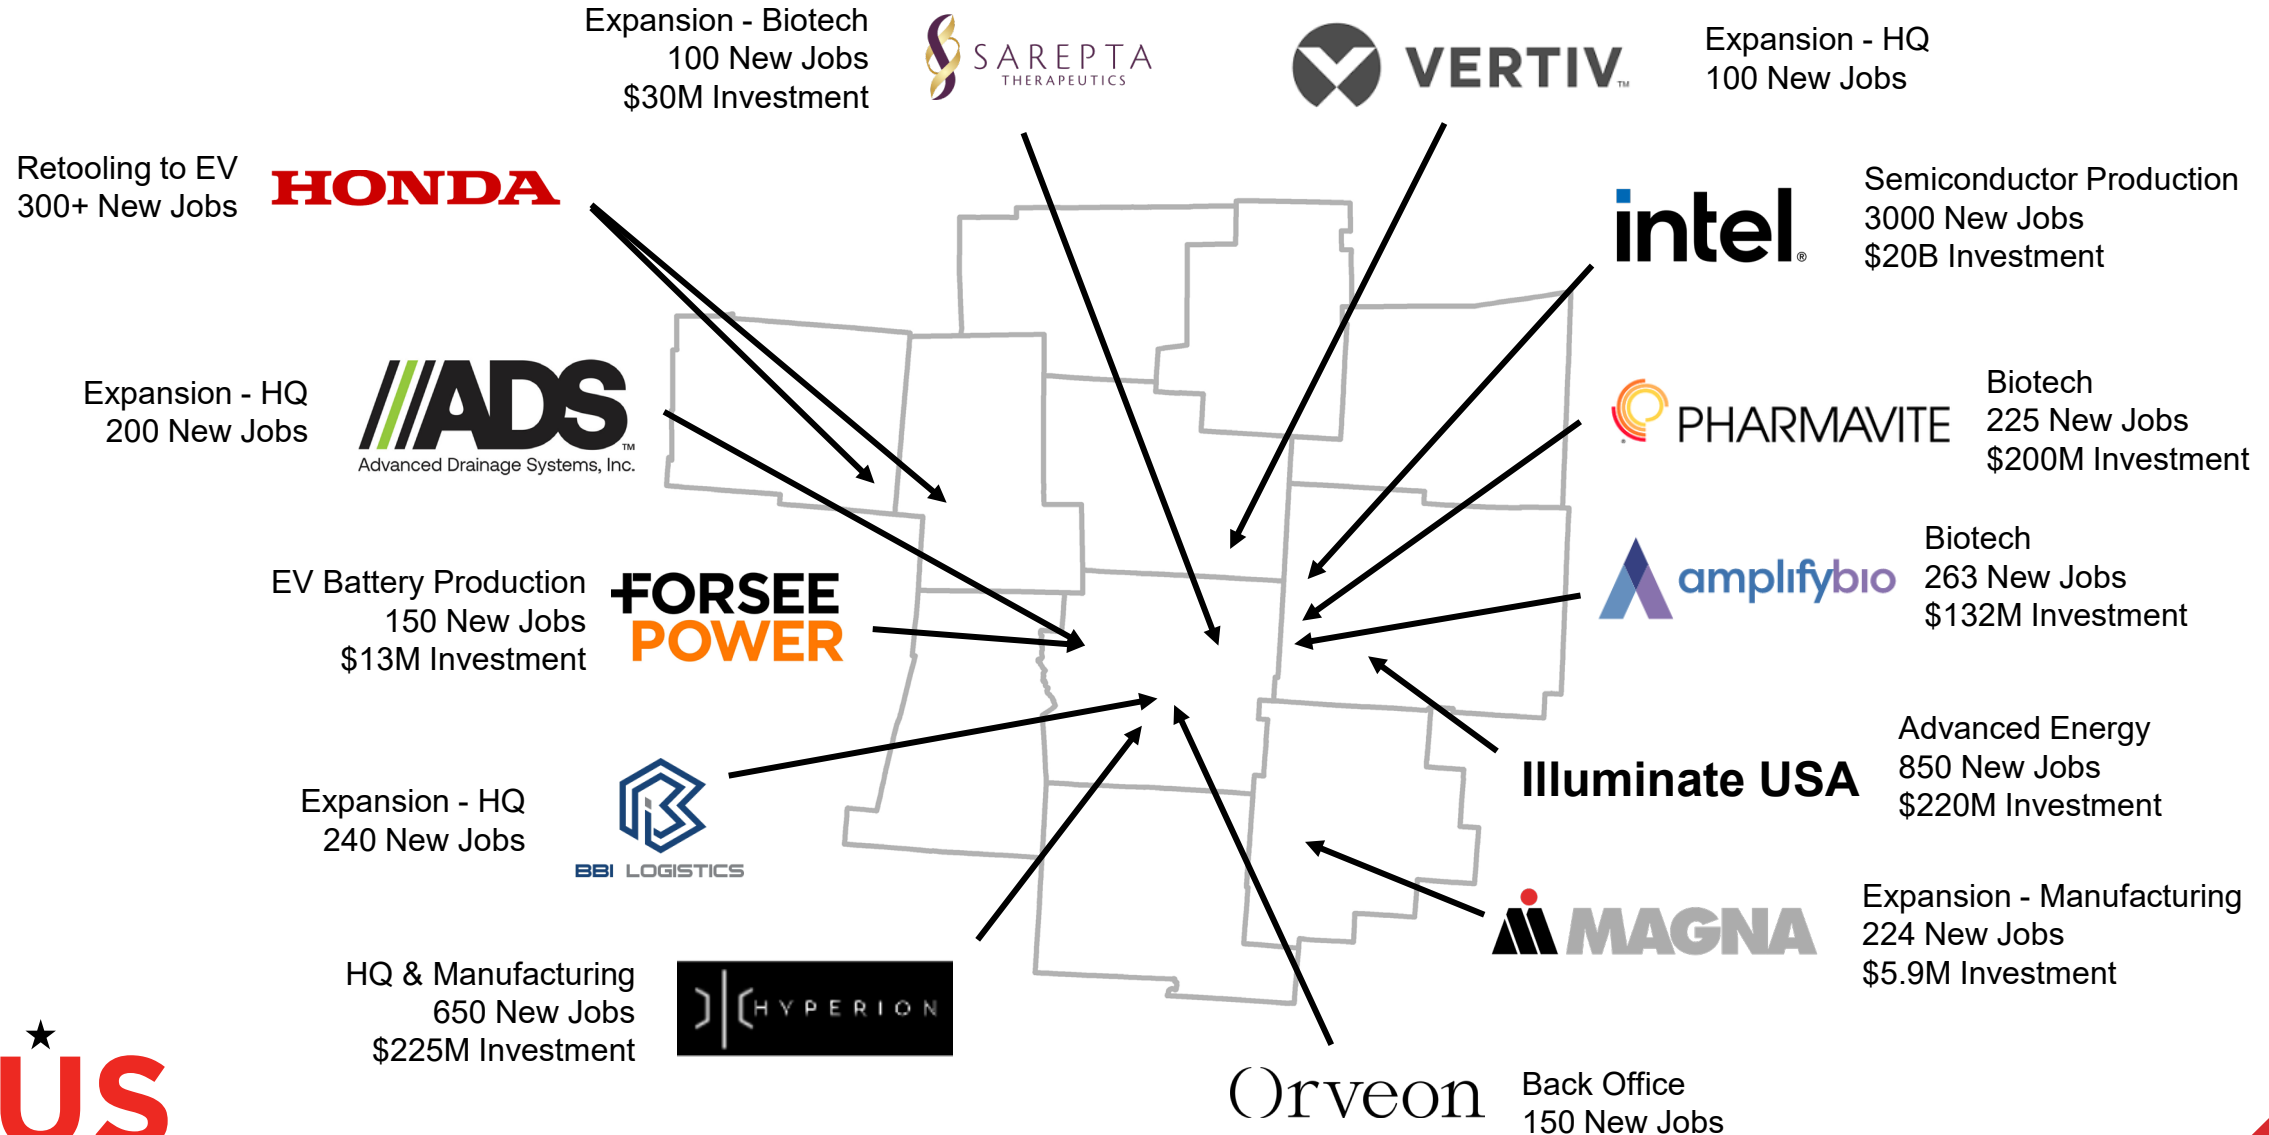

This is especially true in tech-centers, which is what Columbus is aspiring to be.
